About this Tab

Top-line retail health across sales, gross profit, margin, transactions, and basket size — with MoM trend signals and a regional breakdown.

What the KPIs show

Revenue, margin, and basket metrics with MoM deltas reveal whether volume or spend-per-visit is driving shifts — and where leakage starts.

✦ Ask Spotter

- *Why did sales drop Jan→Feb 2026 and which regions drove the decline?*
- *Which store regions have the highest avg basket size and ticket size?*
- *Search retail gross margin benchmarks by category and compare to our performance.*
